

Biodiversity in northeast..profile..

- Rich in resource (Timber & NTFP)
- Poor in understanding
- Conservation culture and ethics
- Varying altitudes and ecosystems/landscapes

Biodiversity in northeast.. Profile..

- Phytogeographical gateway
- High endemism and center of speciation
- Rich folk remedies and traditional health care
- NBSAP/ SBSAPs
- NEC, Universities & research institutes

Biodiversity in northeast..glimpses

Biodiversity in northeast.. Gaps..

- No information on actual potential
- No complete documentation of flora, fauna, traditional knowledge, usage, etc
- Inadequate local manpower and Poor capacity building

Biodiversity in northeast.. Gaps..

- Inadequate training and exposure,
- Unsustainable use,
- Health and livelihood security issues need to be addressed.
- No proximal value addition .

Biodiversity in northeast.. Gaps..

- Non availability of region/state specific databases and communication gaps.
- Inadequate R.& D infrastructure and man power in select areas like taxonomy .

Biodiversity in northeast..options...

- Sustainable use of bioresources
- Bamboos, Canes(Rattans),
- Medicinal plants,Orchids, Broomgrass, Gums & resins,
- Wild ornamentals.Primulas, Begonias, Rhododendrons,ferns,etc

Biodiversity in northeast..options...

- Value additions
- Health and livelihood security options.
- Conservation through people's participation. Need capacity building

Biodiversity in northeast..options...

- Institutional infrastructure
- IT enabled networking and dissemination of information.
- Expert panel
- Income generation through non destructive means of biodiversity application.

Biodiversity in northeast..options...

- Publications and websites
- Biodiversity parks and identification of key species/ resource based developmental plan for select areas Like bamboo based, orchid based, Aromatic plant based, etc at primary level..
- Options are many.....

Biodiversity in northeast..options...

Thank you.
